

## SCOTT C. KRIST

Aside from having been selected by his peers for inclusion in *The Best Lawyers in America*® and in the state of Texas, Mr. Krist has also been named as one of the Top 100 Trial Lawyers in Texas by the American Trial Lawyers Association. Mr. Krist has been repeatedly listed as a *SuperLawyer* in *Texas Monthly* magazine, in addition to being named one of Texas' Top Lawyers for the Consumer in the same publication. *H-Texas Magazine* has repeatedly named him as among "The Best Lawyers in Houston", and while still in his thirties, Mr. Krist was named one of the state's "Rising Legal Stars". Mr. Krist is a member of the invitation-only American Bar Foundation, and a Life Fellow of the Texas Bar Foundation, each limited to one-third of one percent of lawyers in the profession. Mr. Krist is also an honors graduate from the prestigious University of Texas School of Law.

Mr. Krist specializes in representing those among us who have been catastrophically injured. "We encourage the client to concentrate on healing themselves and their family and to let us worry about the rest. We bring a no-nonsense approach to the law, and toward those who face us in the courtroom." If you value ethics, confidence, and the competence that flows therefrom, then look no further. Mr. Krist has taken up the challenge of representing victims of aviation disasters, automotive product defects, tire failures, chemical plant explosions, those catastrophically injured in 18-wheel truck accidents, and automobile accidents among others. Certainly, there are no guarantees, yet time and again, this lawyer finds himself on the winning side of the equation.
